Q1 Issue Statement: [State the problem your recommendation will address. Insert links to reports where appropriate.]

Integrated Information Technology Infrastructure:

While a UA provides an instrument with which to collect a unified set of data across specific programs serving consumers in the community, it is not currently possible for data to be assimilated from across health and LTC programs in order to understand service use, identify gaps in delivery, track outcomes, and improve efficiency in service delivery. The state needs to develop a data infrastructure with the capacity to collect and integrate data from across programs in a format that enables use of the information to drive program and policy decisions.

Q2 MPA Framework Goal #: [Check which goal/s this recommendation addresses. View MPA Framework document]

Goal 1: Services & Supports. We will live where we choose as we age and have the help we and our families need to do so.

,
Goal 2: Livable Communities & Purpose. We will live in and be engaged in communities that are age-friendly, dementia-friendly, and disability-friendly.

,
Goal 3: Health & Well-being. We will live in communities and have access to services and care that optimize health and quality of life.

Q3 MPA Framework Objective #: [Check which objective/s this recommendation addresses. View MPA Framework document]

Respondent skipped this question

Q4 Recommendation: [Explain your recommendation in one to two sentences.]

The CA Health and Human Services Agency should develop an information technology infrastructure that enables the collection and integration of data; facilitates consumer care coordination; and provides information to state, regional, and local levels that enables effective management of programs and services.

Q8 Examples of local, state or national initiatives that can be used as an example of a best practice: [Provide any available links and sources.] Local: State: National: Other: **Respondent skipped this question**

Q9 Implementation: [Insert actions state agencies, legislators, counties, local government, or philanthropy can take to move this recommendation forward. Some of the entities listed below may or may not be applicable to each recommendation.] State Agencies/Departments: [action to be taken by Governor or specific state agencies] State Legislature: [legislation needed to implement recommendation] Local Government: Federal Government: Private Sector: Community-Based Organizations: Philanthropy: Other:

CA Health and Human Services Agency

Q10 Person-Centered Metrics: [Individual measures of inputs or outcomes that can be used to measure the recommended action's impact on people.] **Respondent skipped this question**

Q11 Measuring Success: [Describe specific metrics that could be used to empirically measure the effectiveness of your recommendation] **Respondent skipped this question**

Q12 Measuring Success: [How would we know that the implementation of your recommendation is successful?] **Respondent skipped this question**

Q13 Data Sources: [What existing data can be used to measure success or progress?]: Existing data sources: [specify datasets, variables, and data owner/location] Suggestions for data collection to evaluate implementation of this goal when no data sources exist:

See #7 above.
