**Subject:** support programs for pets for elders

To whom it may concern:

I am 74 and I have a wonderful rescue dog. Unfortunately she is epileptic. I am a client of PAWS in San Francisco. Thanks to PAWS I am able to keep my wonderful pet. They supply pet food, emergency care, vet care vouchers and vet care at their office. The support from PAWS allows me to maintain my health. Please support these programs in the state that allow elders to keep a pet. Pets keep people alive and they are a major factor in longevity! Thank you,
